

February 15, 2012

Dear Colleague,

On April 26-27, the Annual 2012 Meeting of NSGO will be held in Tampere, where we will also celebrate the 25th Anniversary of NSGO. The main topic of the Meeting is Personalized Medicine, with very distinguished speakers world-wide.

It is our great pleasure to inform you that on the evening before the NSGO Meeting starts, or on April 25, 2012, starting at 7 PM, we will arrange a Pre-Symposium "Optimizing the Treatment for Patients with Recurrent Ovarian Cancer". The problem of recurrent ovarian cancer will be addressed in the spirit of the NSGO Meeting, or from the point of individualizing the treatment. You'll find the Program of the Pre-Symposium enclosed and for your convenience we have arranged so you can **register to this symposium on the NSGO homepage** at the same time you register for the annual meeting.

Looking forward to seeing you in Tampere,

Sincerely yours,

Johanna Mäenpää, MD, PhD
Professor
Department of Obstetrics and Gynecology
University of Tampere and
Tampere University Hospital

Peter Myrenfors, MD
Medical Director
Swedish Orphan Biovitrum
