

## CV Lundgren

Caroline Lundgren, PhD, senior consultant

Med school in Uppsala. Specialist in Gynecologic oncology and Obstetrics and gynecology. I have been at Radiumhemmet in Stockholm since 1993. Defended my thesis "Endometrial cancer – prognostic factors and protein expression profiling" in 2004. In charge of endometrial cancer in the Stockholm Gotland region. Participated in the work with the new national guidelines for treatment of endometrial cancer to be published in 2012. I have been responsible for the endometrial cancer high risk (NSGO/EORTC) and medium high risk studies in Stockholm. PI for Ixample 2 study in Sweden. PI for ENGOT EN 2 in Sweden. Member of NSGO since 2001. Elected member of the Board of Swedish Society of Oncology in 2003, where I am in charge of educational questions. In this roll I have been in charge of the new core curriculum for education in Oncology and Gynecologic Oncology. I am participating in a group founded by the Swedish Medical Association working towards better structures in further education of specialists.

During the first period in the NSGO board I have started to re-activate the Radiotherapy working group.

I am looking forward to continue working in the NSGO board.
